Introduction

With the ever-increasing technical complexity of building, fire and disability code compliance, it is now more important than ever to specify the appropriate product for security and life-safety.

Let our team of technically trained consultants assist your product specification and door hardware scheduling to ensure these codes are met.

We have sales offices located in Brisbane, Melbourne, Perth, Sydney, Auckland, Christchurch, Wellington, and are happy to discuss any requirements or queries you may have.

Total Solutions

Independently or as an integrated total solution, we can tailor an option to suit your individual security and safety needs for home and business.

- **Briton** - Door Closers, Emergency Exit Devices, Fire Door Controls, Floor Springs, Transom Closers
- **Cisa** - Euro Mortice Locks, Hotel Locking Systems, Safes
- **Falcon** - Auto Swing Door Operator, Exit Devices
- **Glenn-Johnson** - Door Controls
- **Ives** - Door Controls, General Hardware
- **LCN** - Auto Equalisers, Door Closers, Fire Door Controls, Benchmark Auto Swing Door

- **Legge** - Door Furniture, Electric Locks, Locks and Latches, Keying Systems, Entrance Handles, General Hardware, Hinges, Latches

- **Schlage** - Door Furniture, Entrance Handles, General Hardware, Keying Systems, Locks and Latches, Handkey: Biometric Access Controls, HandPunch: Time and Attendance

- **Von Duprin** - Emergency Exit Hardware, Electronic Door Control Products, Exit Devices
### Technical Specifications

#### Finish
- SSS 7 year finish

#### Warranty
- SSS 7 year finish

#### Accessories
- Locks/Bolts:
  - ME Series Roller Deadbolt and Cylinder (available as a complete lockset)
  - Cisa 7000 Series Roller Deadlock
  - Legge 900MF Mortice Deadlock
- Door Type:
  - Wood
  - Metal
  - Glass
- Door Thickness:
  - 35mm - 60mm
- Escutcheons:
  - Oval Cylinder (round or square)
  - Euro Cylinder (round or square)
  - Turn (round or square)

### Door Type:
- Non-Handed

### Closer Strength:
- 1120B 2-4 Adjustable
- 1120HD 2-4 Adjustable
- 1120FT 1-3 Adjustable
- 1130 Closer Strength:
- 1130DA 2-5 Adjustable
- 1130BT 1-4 Adjustable
**Building Partnership Programme**
Built around the architectural hardware requirements for new homes (essentially the door furniture and locks), the Building Partnership Programme is a mutually beneficial arrangement between you, the hardware merchant and Allegion. It is also a response to the particular desire by building companies for quality, well designed products, robust warranties, simple but effective key control, and time-saving installation.

**Services**
- **Scheduling** – A comprehensive door schedule specification service is provided. Door hardware schedules are available with no obligation.
- **Residential Construction Keying** – RCK system, involves a single key, replicated to be used by tradesmen for all homes during the construction phase. Building companies will be supplied 25 keys free (additional keys by negotiation), which can be reused on future houses/apartments. Each building company receives a personalised RCK system, so no two building companies have the same keys. When the new homeowner takes over the house, they are presented with their own keys, which when used automatically resets the lock cylinder, making the RCK inoperable and providing the homeowner with their own unique combination.

**Master Keying** – Master Keying is a method of controlling access through a building. A key schedule is prepared from provided floor plans. Includes a key tracking system which locates keys and locks and keeps a secure procedure on what keying has been undertaken. Security is based on a system where one lock has its own key. This key will not operate any other locks in the system however where all locks are in the same system the locks can be operated by the one master key.

- **Keyed Alike** – KA – More than one lock being operated by the same key.
- **Keyed To Differ** – KD – One lock is opened with a single key.

**Door handing guide**

- **Right Hand (RH)**
  - Inside
  - Right Hand
  - Outside
  - Left Hand (LH)

- **Hinge Hending Guide** (Model 1327)
  - Right Hand Door
  - Opening In
  - Opening Out
  - Left Hand Door
  - Opening In
  - Opening Out

- **Common terms**
  - **Door Preparation** – A term used for the cut-out or holes made to the door for the particular lock being installed.
  - **Backset** – The distance from the edge of the door to the centre line of prep in door.
  - **Door Thickness** – The measurement from outside front through to outside back of door. All locks have a minimum / maximum door thickness which they will fit.
  - **Lever dimension guide**
    - **H** = Bottom of base to top of lever
    - **L** = Length of lever

**Finish abbreviations**
- **AB** – Antique Brass
- **ALUM** – Aluminium (US-689, SP28, MAL)
- **BB** – Bright Brass
- **BBRZ** – Blackened Bronze
- **Black** – Black Powder Coated
- **CP** – Chrome Plate (US-625)
- **FB** – Florentine Bronze
- **NP** – Nickel Plate
- **PB** – Polished Brass (US-605)
- **SCP** – Satin Chrome Plate (US-626, US26D)
- **SE** – Sprayed Silver
- **SNP** – Satin Nickel Plate (US-619)
- **SP** – Satin Pearl
- **SSS** – Satin Stainless Steel (US-630, US32D)

**Product application classification**
- **Residential and Light Commercial** – Moderate use. Typical applications include residential homes, apartments and low traffic offices.
- **Commercial** – Moderate to high traffic flow. Typical applications include classrooms, storerooms, entrance / fire applications.
- **Heavy Commercial** – Excessive high usage / high security subject to abuse. Typical applications include prisons, stairwell doors and air pressure differential.

**Finish glossary**
These colours are indicative only, subject to limitations in the printing process.
