

EasyLap™ Panel

EasyLap™ Panel is a pre-primed fibre cement sheet with a shi lap edge vertical joint along the two long edges. **It's finished with a site-applied roll-on textured acrylic paint*** to create a rendered look with a subtle vertical joint.

For an even easier solution choose Hardie™ Fine Texture Cladding which has the render texture already in the panel.

EasyLap™ Panel is suitable for use as an external wall cladding in residential single and medium-density homes, including renovations and extensions, where a uniform broadwall cladding is required. Ideal for full or composite construction designs on either timber or light gauge steel framed homes.
